and
Ancillary Detectors
Network

Third Workshop of the European Gamma and Ancillary Detectors Network

EGAN 2013

Liverpool, 24-27 June 2013

Associated Events:

Annual Open Meeting of the AGATA Collaboration
Meetings of the EGAN Working Groups and Scientific Committee

FIRST CIRCULAR

SCOPE AND TOPICS

The European Gamma and Ancillary detectors Network (EGAN), in the framework of ENSAR (FP7), promotes the mutual coordination between research groups involved in high-resolution gamma-ray spectroscopy to optimize the use of the valuable resources at the different infrastructures and to enhance synergies among researchers on a broad European scale for frontline research.

The aim of the EGAN 2013 Workshop is to present the latest physics results on obtained with the different gamma arrays and to strengthen the collaboration between theoreticians and experimentalists. In particular we want to explore different methods and techniques from both the structure and reaction mechanism points of view to plan and design new experiments at the stable and radioactive beam facilities.

Review talks are planned with ample time scheduled for discussion. These reviews will be followed by shorter contributions selected from the submitted abstracts.

The deadline for abstract submission is the 15th April 2013. Information regarding the abstract selection will be notified to the contributors by the 30th April 2013.

The workshop will start at 2pm on Monday 24th June. A welcome cocktail will be served on the evening of the 24th June. The Social Dinner will take place on the evening of Tuesday 25th June.

Annual Open Meeting of the AGATA Collaboration

Wednesday 26th and 27th June (am) will be dedicated to the annual open meeting of the AGATA collaboration organized by the AGATA Collaboration Council where the status, results and plans of the AGATA project will be discussed. There will be a reception on the evening of 26th June sponsored by Canberra.

Meetings of the EGAN Working Groups

The afternoon of Thursday 27th June will be devoted to the meetings of the EGAN Scientific Committee and of the Working Groups coordinating the ancillary instrumentation developments.

WORKSHOP VENUE

The workshop will be held at the University of Liverpool, UK. For detailed information about the workshop please visit the website where information will be updated regularly.

REGISTRATION AND ABSTRACT SUBMISSION

Participants are invited to register using the registration form available on the web site from **January 27th to 17th June 2013**. There will be no registration fee. Lunches will be free of charge during the workshop. The social dinner will also be free of charge for the participants of the workshop. Extra financial support will be available for young researchers wishing to attend the Workshop. This can be requested on the registration form. This support will cover local accommodation costs (bed and breakfast) in Liverpool. The deadline for the request for financial support is 17th May. See the website for details: <http://ns.ph.liv.ac.uk/EGAN/>

Abstracts of a maximum of one page (min. 11pt font) may be submitted. These should be sent to Mrs Angela Reid: a.j.reid@liv.ac.uk by 15th April. Those selected for oral presentation will be notified by 30th April.

IMPORTANT DATES

- Registration: until 17th June 2013.
- University accommodation: book by 27th May 2013.
- Request financial support: until 17th May 2013.
- Deadline for abstract submission: 15th April 2013
- Notification to contributors: 30th April 2013

ACCOMMODATION

Details of accommodation are available on the website:

<http://ns.ph.liv.ac.uk/EGAN/>

Brand new University accommodation is available onsite about 5 mins walk from the workshop meeting rooms. This is the accommodation recommended by the organisers. This must be booked by 27th May 2013.

A list of local hotels will be posted on the conference web site.

CORRESPONDENCE

Please address all correspondence by electronic mail to:

Mrs Angela Reid: a.j.reid@liv.ac.uk

Please put EGAN2013 in the title to help us respond to you.
